**Subject:** Docket 297

The Court has requested a joint filing on two issues. As to the identity of the franchisor we will not be in agreement so I would request you provide me with your proposed language (which we will not edit) on this issue and I will provide our proposed language which will both be filed with the Court. As for the organizational chart I have attached a nonargumentative chart. If you have a different chart which is not argumentative we will consider it as well. I will propose language regarding docket 178 and hopefully we can have joint language on that issue.

I would like to try to file this in advance of the Court's deadline.
